

Association AMAL of Leukemia Patients

celebrates

The International day of children cancer

We started the activity by making a list of children names, after receiving all our guests, Madame the president of the association, Madame GOUIMI Bahija had a speech where she touched everyone's heart, gave patients hope in life, and told them that we are all with them, that they are not alone, then she introduced volunteers students of HEM and students of BTS who helped making the day successful, they had speeches in three languages (French, Arabic, and Berber), after that we distributed toys for children as we called each kid by his name following the list and called a guest or a volunteer to give him his gift, then time for a jus break, distribution of jus, cakes, candy and giving happy meal to children, where the ones who were able to draw had the opportunity to draw, do some coloring, and learning some origami technics, and finally putting some make up for little girls.
